

medical aesthetic services

Dysport

This is a neuromodulator that works by blocking the nerve signals that tell your muscles to contract. Dysport helps to smooth wrinkles and fine lines. This begins to take effect 3 days post-injection with maximum effects 7 days post-injections. The effects typically last 12-16 weeks.

Dysport – \$5/unit

Restylane

This is a dermal filler used for a variety of facial aesthetic treatments and are injected into the skin. They are designed to reduce the appearance of unwanted wrinkles, contour, and create volume. Filler instantly restores a more youthful, volumized appearance.

\$650/syringe

KYBELLA

The only FDA-approved injectable treatment that destroys fat cells under the chin to improve your profile.

\$600/vial

Sculptra® Aesthetic

This treatment works subtly and gradually over time for a more youthful-looking appearance. Unlike hyaluronic acid (HA) fillers, Sculptra® Aesthetic helps stimulate your skin's own natural collagen production to help restore its inner structure and increase facial volume that has been lost to aging.

\$700/vial

Microneedling

A treatment performed with a medical device used to create micro channels (tiny holes) in the skin. The process stimulates your skin's natural ability to heal itself and in the process produces collagen and elastin. This repair process begins almost immediately and results in a thicker dermis and softened wrinkles or scars. It also improves skin tone, texture, reduces pore size, and hyperpigmentation. The collagen production takes place over 30 days. There is very little downtime and discomfort with this skin changing treatment. 3 sessions are required, 30 days apart for best results.

One Session – \$350

Three Sessions – \$900

Add Ons

Neck – \$50

Chest – \$50

Glowtox Microneedling

Microneedling with Dysport infused in the skin to help with temporary skin tightening and decrease the crepe-like appearance of skin.

One Session – \$550

Add Ons

Neck – \$200

Chest – \$200

Rejuvasculpt Microneedling

Take your microneedling results to the next level by infusing Sculptra to stimulate collagen production, dysport to tighten skin and decrease the crepe-like appearance, and ZO firming serum accelerator. The ultimate service – CrossFit for your face!

One Session – \$850

Add Ons

Neck – \$200

Chest – \$200

PRF

Platelet-rich fibrin helps stimulate healing and build tissue. Fibrin is known to stimulate stem cells which improve collagen and elastin in the skin. Can be effective in treating fine lines and wrinkles, decreasing the depth of folds, improves skin tone and texture, decreasing the appearance of pore size, helps decrease darkness under the eyes, and improves overall appearance of skin tone and texture. One of the best places to use is under the eyes for darkness and hollowness. 5-6 sessions are typically needed for max results. Each session is performed 30 days apart. Maintenance treatment would be one treatment every 3-4 months as needed. Virtually painless, no true downtime, may have minimal discomfort, bruising and swelling.

Under eye - \$600/treatment

Full face - \$600/treatment

Hair restoration - \$600/treatment

spectrum laser services

IPL Photo Facial

Intense Pulsed Light (IPL) Photofacial is a laser light treatment that targets pigment issues, such as brown spots, sun damage and red spots, and Rosacea. The bright light passes through the epidermis, drawing out the pigment producing cells and dispersing the uneven pigment. IPL Photofacial can be used on the face, neck, chest, shoulders, back arms, legs and just about anywhere else. Photofacial is also an effective treatment for broken veins, spider veins. According to Stanford Medical University, the long-term effects of photofacials actually reverse the signs of aging.

One Session – \$350
Three Sessions – \$900

Erbium YAG Skin Resurfacing

Erbium Laser skin resurfacing is a procedure specifically designed to remove superficial and moderately deep lines and wrinkles on the face. It also treats or removes pigmentation, moles, acne scars and traumatic induced scars.

One Session – \$550
Three Sessions – \$1,350

Tattoo Removal

Did you know that about 50% of those who get tattoos later regret their decision? If you have personal or professional regrets about a tattoo, you don't have to continue to live with unwanted body art. Our state of the art laser will remove unwanted tattoos. The number of sessions depends on the size and color of the tattoo you wish to have removed.

15 minutes – \$300
30 minutes – \$500
45 minutes – \$600
60 minutes – \$700

Vein Removal

Laser treatments are an effective way to get rid of small spider veins. The laser light collapses and destroys the vein. Many veins only require one treatment. Larger veins and leg veins generally take 2-4 sessions.

15 Minute Session – \$300
30 Minute – \$500

Permanent Hair Removal

If you're not happy with shaving, tweezing, or waxing to remove unwanted hair, laser hair removal may be an option worth considering. Laser hair removal is one of the most commonly done cosmetic procedures in the U.S. It beams highly concentrated light into hair follicles. Pigment in the follicles absorb the light which destroys the hair. 5-7 sessions is recommended to permanently remove unwanted hair.

Underarm/Bikini/Neck – \$200 per session
Full Brazilian/½ legs/Back – \$350 per session
Full Leg – \$500 per session

facial treatments

Dermaplaning

This is a non-invasive procedure that results in a more healthy and vibrant complexion. Dead skin cells and facial hair on the surface of the face are gently removed to reveal the younger, baby smooth, fresher skin that resides underneath. Your skin care products will penetrate the skin more effectively and your make-up will apply more evenly. The procedure is painless and requires no down time. This is the perfect prep for your skin before a chemical peel.

Dermaplane – \$125
Add on to other service – \$75

CryoTouch CO2 Facial

This state-of-the-art, anti-aging treatment is clinically proven to reduce fine lines and wrinkles, tone and tighten, and improve the overall health and appearance of the skin.

CryoTouch CO2 Facial with Microneedling – \$525
CryoTouch CO2 Facial with Dermaplane – \$250

Hydrofacial

Dermalfusion Hydrofacial is an advanced deep clinical skin-resurfacing treatment that is the only treatment to combine exfoliation, extraction, and infusion simultaneously with condition-specific serums to improve skin health, function, and appearance. Skin is volumized 70% in just one treatment! A patented, non-invasive treatment. Dermalinfusion is fully customizable and the perfect solution to address a wide variety of skin concerns and conditions from head-to-toe and is suitable for all skin types and tones.

Regular Hydrofacial – \$175
Combo Dermaplane + Hydrofacial – \$250

Add Ons

Chest – \$75
Booster – \$50 (added serum to target specific concerns like brightness, fine lines, and aging skin)

Our Hydrofacials include the face, lips, eyes and neck – a facial massage and end with a refreshing jade roller. We like to make sure every area is covered for the same price. Most spas charge extra. We recommend this facial to anyone needing to refresh before an event or special occasion. You will leave feeling fresh and glowy!

ZO Stimulator Peel

This treatment is excellent to accelerate skin exfoliation, resulting in renewed, healthier looking skin and a more uniform complexion. Our clinicians will customize a chemical peel to address your specific skin needs.

\$150

Perfect DermaPeel

This is a non-invasive, relatively pain free treatment. It's slightly different from other chemical peels because of its powerful blend of ingredients, including: Glutathione, Kojic Acid, TCA, Phenol, Retinoic Acid and Salicylic Acid. Safe for all skin types.

Perfect DermaPeel – \$350

triLift

triLift is a treatment designed to effortlessly target the 3 most common aging elements— structure, contour, and texture. With the triLift treatment, you can experience an immediately* visible face lift-like effect that is safe and quick.

Lift & Glow Facial - Perfect for any event. Results last two weeks.

plasma pen services

Subnovi Plasma Skin Tightening

A non-invasive alternative to surgery which has been referred to as “soft surgery” since we can achieve very similar results without the risk, pain, and down-time of traditional surgery. We achieve this by applying micro charges of plasma energy into the skin. This causes sublimation of the tissue in very superficial levels eliminating excess tissue and reducing even eliminating wrinkles and soggy skin.
